FIG. 27

A schematic diagram of a multi-layered rectangular structure, likely a battery cell. The diagram shows a central rectangular area (30) surrounded by a frame of alternating horizontal and vertical layers (29). The entire assembly is enclosed within a larger rectangular boundary (1). The layers (29) are hatched, while the central area (30) is white. The outer boundary (1) is also hatched. The diagram is labeled with 1, 18, 29, and 30.
